

# Adult Nudity and Sexual Activity

---

## Policy Rationale

We restrict the display of nudity or sexual activity because some people in our community may be sensitive to this type of content, particularly due to cultural background or age.

We understand that nudity can be shared for a variety of reasons, including as a form of protest, to raise awareness about a cause or for educational or medical reasons. Where appropriate and such intent is clear, we make allowances for the content. For example, while we restrict some images of female breasts that include the nipple, we allow other images, including those depicting acts of protest, women actively engaged in breast-feeding and photos of post-mastectomy scarring (sometimes labeled with a sensitive warning screen and age-based restrictions). We also allow real world art that depicts nudity such as photographs of paintings, sculptures, etc (sometimes labeled with a sensitive warning screen and age-based restrictions). We default to removing sexual imagery to prevent the sharing of non-consensual or underage content.

Under this policy, we remove real photographs and videos of nudity and sexual activity, AI- or computer-generated images of nudity and sexual activity, and digital imagery, regardless of whether it looks “photorealistic” (as in, it looks like a real person). As noted above, we also make careful allowances for real world art and certain medical, educational, and awareness-raising content, and these are detailed in the policy.

Content relating to child nudity is addressed in our Community Standard on [Child Sexual Exploitation, Abuse and Nudity](#).

We do not allow the following content for all users:

## Adult Nudity

- Photorealistic/digital imagery of adult nudity, if it depicts:
  - Visible genitalia (including when obscured by pubic hair or digital overlays)
  - Visible anuses and/or close-ups of visible buttocks
  - Visible female nipples, except in a breastfeeding, or act of protest context
- Photorealistic/ digital videos that focus on crotch, female breasts, or buttocks recorded without the awareness of the person(s) depicted in them
- Note that with some restrictions, we may allow depictions of adult nudity in additional special contexts, such as medical or health contexts. This is covered in greater detail in the sections below.

## **Adult Sexual Activity**

- Photorealistic/ digital imagery of adult sexual activity, including:
  - Explicit sexual activity or stimulation:
    - Explicit sexual intercourse or oral sex, as indicated by a person's mouth or genitals entering or in contact with another person's genitals or anus, or genitals placed upon or inserted into a sex toy, when at least one person's genitals or anus is visible
    - Explicit stimulation of a person's genitals or anus, as indicated by stimulation, or the insertion of sex toys into the person's genitals or anus, when the contact with the genitals or anus is directly visible
  - Implicit sexual activity or stimulation:
    - Implicit sexual intercourse or oral sex, as indicated by a person's mouth or genitals entering or in contact with another person's genitals or anus, when the genitals or anus and/or the entry or contact is not directly visible
    - Implicit stimulation of a person's genitals or anus, as indicated by stimulation, or the placement of sex toys above or insertion of sex toys into the person's genitals or anus, or genitals placed upon or inserted into a sex toy, when the genitals or anus, stimulation, placement, and/or insertion is not directly visible
    - Impending sexual activity, as indicated by positions which suggest contact is about to be initiated between a person's hand, mouth or genitals with another person's genitals or anus.
  - Other sexual activity or stimulation:
    - Erections
    - Presence of by-products of sexual activity
    - Sex toys placed upon or inserted into mouth
    - Stimulation of visible human nipples
