Privacy and Security

Released August 14, 2025

Effective September 13, 2025

Keeping your personal information safe—and making sure TikTok stays secure—is a big part of earning your trust.

Personal Information

What you share online can reach anyone. That's why **we don't allow content with personal information that could lead to stalking, identity theft, fraud, or other harm**. This includes content that someone has posted themselves or that they consented to being shared by others.

We may also remove moderate risk personal information shared without consent if it puts someone at risk of psychological harm. We generally require additional context to remove these types of personal information.

If you think your privacy has been violated, you can report it here.

    ⌄   **More information**

Platform Security

We work hard to keep TikTok safe, secure, and running smoothly. That includes stopping any attempts to break into the platform, steal information, or abuse our systems.

We advise against clicking suspicious links or sharing your private account information. **Learn more about our approach to privacy and security here.**

Product feedback

How do you think we can improve?

Accuracy: The information provided didn't match what I see in the product

Readability: The information was unclear and not easy to understand

Relevancy: The information didn't match the title or header

Details: The information is relevant to me, but lacking additional details or examples

Formatting: There are formatting errors, typos, or issues with the information structure
